BY JIM LEE FOR THE INQUIRER  
 A peace accord in the south may be  
 jeopardized by a deadly battle in the  
 province, which could imperil peace talks.

"There is a danger that the  
 Maguindanao fighting could imperil

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the physical fitness and health of sedentary, middle-aged men. The program consisted of three sessions per week, each lasting 45 minutes. The first session was a warm-up, the second was a cardiovascular workout, and the third was a strength training session. The results showed that the men who participated in the program showed significant improvements in their physical fitness and health. Specifically, their heart rate, blood pressure, and cholesterol levels all decreased, while their endurance and muscle strength increased. These findings suggest that a 12-week training program can be an effective way to improve the physical fitness and health of sedentary, middle-aged men.

By 1990, the government had lost control of the economy. In 1991, the government was forced to accept a loan from the International Monetary Fund (IMF) to help it manage the economy. The IMF required the government to implement a series of reforms, including privatization of state-owned enterprises, liberalization of trade, and strengthening of the legal system. These reforms were implemented, but the economy remained weak and the government continued to face challenges.

# Bataan gov't owns hotel, high court rules

**By Lito S. Remon**  
MANILA, Philippines — The Supreme Court has ruled that the Bataan Provincial Government owns the Bataan Hotel, a landmark decision that could set a precedent for other government-owned properties. The court, in a 6-2 decision, dismissed a petition filed by the Bataan Hotel Corporation (BHC) to nullify a resolution of the Bataan Provincial Board of Directors (BPD) that declared the hotel as a provincial asset. The BPD resolution, passed in 2008, stated that the hotel was built using provincial funds and should therefore be owned by the province. BHC, which was established in 1991, claimed that the hotel was a private enterprise and that the BPD's resolution was an attempt to circumvent the law. The court, however, found in favor of the province, stating that the hotel was indeed built using provincial funds and that the BPD's resolution was valid. The court also ruled that the BPD's resolution was not a violation of the law, as it was a legitimate exercise of the province's power to manage its assets.

The Bataan Hotel Corporation (BHC) was established in 1991 as a private enterprise. It was created through the merger of the Bataan Hotel and the Bataan Hotel Corporation. The BHC was then declared a provincial asset by the Bataan Provincial Board of Directors (BPD) in 2008. The BPD resolution stated that the hotel was built using provincial funds and should therefore be owned by the province. The BHC, however, claimed that the hotel was a private enterprise and that the BPD's resolution was an attempt to circumvent the law. The court, in a 6-2 decision, dismissed the petition, finding in favor of the province. The court stated that the hotel was indeed built using provincial funds and that the BPD's resolution was a legitimate exercise of the province's power to manage its assets. The court also ruled that the BPD's resolution was not a violation of the law, as it was a legitimate exercise of the province's power to manage its assets. The court's decision is a landmark one, as it sets a precedent for other government-owned properties. It also clarifies the legal status of the Bataan Hotel, which has been a source of controversy for years. The BHC is now required to operate as a provincial asset, and the province has the right to manage and dispose of the hotel as it sees fit. The court's decision is a victory for the province and its residents, as it ensures that the hotel remains a public asset and that the province's funds are used for the benefit of the community.

# Stop the war, Maguindanao folk cry

By [Name] and [Name] in Manila

MANILA, Philippines — A group of Maguindanao residents in Manila have called for an end to the conflict in their home province, saying it has caused the death of thousands of people and the displacement of millions.

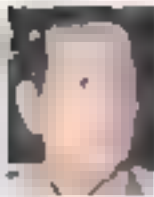

The group, known as the Maguindanao Peace Council, held a press conference in Manila on Monday, demanding that the government and the MILF (Muslims in Liberation Front) agree to a ceasefire.

The council said that the conflict in Maguindanao has caused the death of thousands of people and the displacement of millions. It also said that the conflict has caused the destruction of many villages and the loss of many lives.

The council called for an end to the conflict and for the government and the MILF to agree to a ceasefire. It also called for the government to respect the rights of the people of Maguindanao and to provide them with the same rights and freedoms as the rest of the Philippines.

# 5 suspects in car rental swindle fall

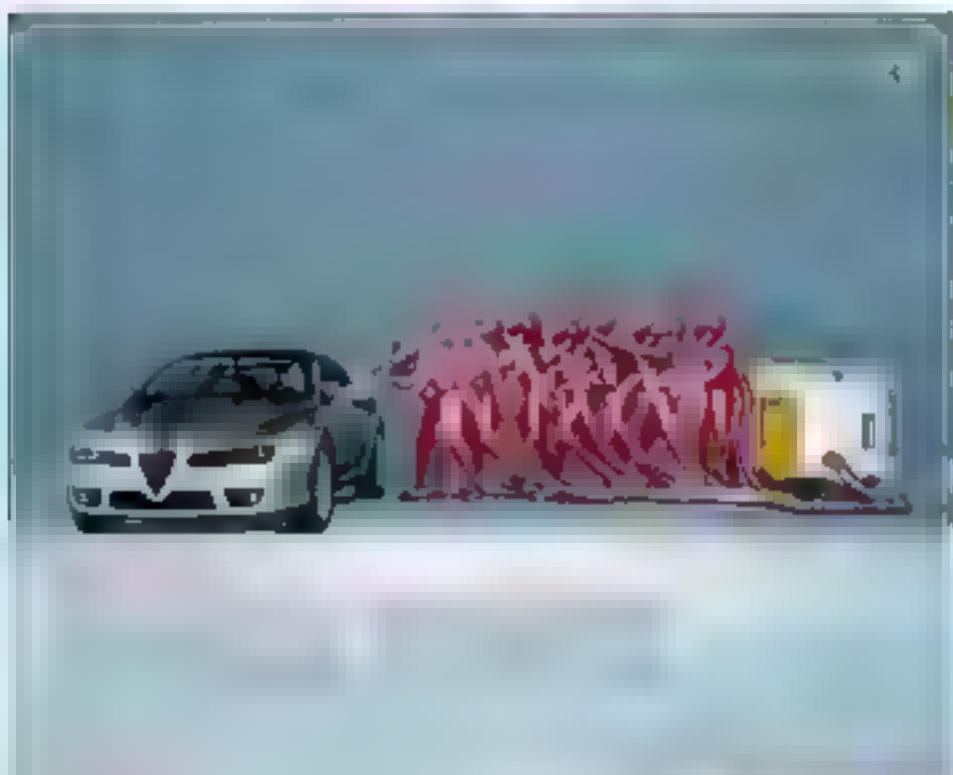

## Only 6 out of 63 cars hired by syndicate recovered by TMG

By Benjamin C. Santos

MANILA (Philippine Daily Inquirer) — Five suspects in a car rental swindle were arrested by the Traffic Management Group (TMG) of the Philippine National Police (PNP) on Monday. The suspects were arrested after a series of investigations and a search of the records of the PNP. The suspects were charged with various offenses, including theft and illegal possession of firearms. The TMG recovered only six out of the 63 cars hired by the syndicate. The remaining cars are still being searched for. The PNP is continuing its investigation into the syndicate and its activities.

## Dr. Margaret A. Mee

1. *Staphylococcus aureus* (ATCC 12228) was grown in Tryptone Yeast Broth (Difco) at 37°C. Cells were harvested at mid-log phase (OD<sub>600</sub> = 0.5) and washed with phosphate-buffered saline (PBS). Cells were then resuspended in PBS and sonicated using a Branson 250 sonifier (Branson Ultrasonics, Danbury, CT) to produce a suspension of small vesicles. The suspension was then centrifuged at 100,000g for 1 hour to remove any large debris. The supernatant was then dialyzed into PBS.
